

Septic tank maintenance micro-beads 12 months

Micro-beads

Septic tanks, all-water tanks, grease traps, soakaways

- ✓ Liquefies paper and organic matter, reduces sludge
- ✓ Patented micro-beads: 2 sachets for 1 year (1 sachet/tank of 1 to 3 m³)
- ✓ 1 sachet every 6 months

FEATURES

2 applications ensure up to 12 months of maintenance for your septic tank.

The micro-beads gradually release specific bacteria and enzymes that maintain biological balance, break down organic matter, reduce sludge formation, and limit bad odours.

This sustained release guarantees long-lasting action between pump-outs, even in the presence of household chemical residues.

Patented process: France (No. FR2831080) - Belgium (No. BE1014953).

INSTRUCTIONS FOR USE

- ✓ Pour the entire contents of one sachet into the toilet bowl.
- ✓ Flush twice.
- ✓ Repeat the operation with the second sachet 6 months later.
- ✓ 1 sachet treats a tank volume of 1 to 3 m³.

RECOMMENDATIONS

- ✓ Avoid excessive bleach.
- ✓ No wipes or oils.
- ✓ Zero solvents or corrosive products.
- ✓ Keep out of reach of children.

* The product or its components are not derived from organic farming. The term 'bio' or 'biological' refers to enzymes derived from microbiological organisms.
